

YOUR NAME GOES HERE
THE PLACE YOU DID YOUR PROJECT GOES HERE

ABSTRACT

Briefly summarise your research - what was your project about, how did you do your research and what did you find out by the end?

AIMS

Explicitly and concisely state what you were trying to find out by doing your project.

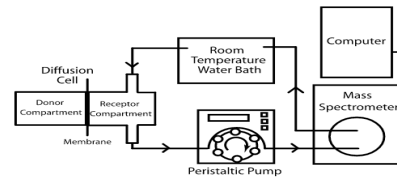

INTRODUCTION

Here you can explain any background information about your project area and explain why you were doing research about that particular topic.

METHODS

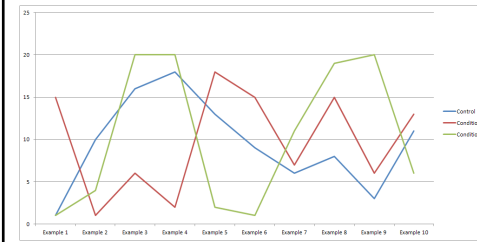

Explain how you did your research, including any equipment/techniques that you used.

You could include diagrams or photos to illustrate your methods.

RESULTS (CONTINUED)

...and/or use a graph to illustrate your findings.

FURTHER WORK

You could include a section about any further work that could be done in your project's subject area.

CONCLUSIONS

Clearly state what you found out by doing your project.

RESULTS

What results did you get?

You may want to include a table showing the data you collected...

	Control	Condition 1	Condition 2
Example 1	1	15	1
Example 2	10	1	4
Example 3	16	6	20
Example 4	18	2	20
Example 5	13	18	2
Example 6	9	15	1
Example 7	6	7	11
Example 8	8	15	19
Example 9	3	6	20
Example 10	11	13	6

DISCUSSION

Use this section to explain what your results mean, any limitations of the methods you used, anything you could have done better or anything that went wrong that could have affected your results.

REFERENCES

Include a list of any books, journal articles etc you used in your project here.

ACKNOWLEDGEMENTS

You can use this section to thank your supervisor and anyone else who helped you with your project.
